

Calais

Quartz PC represents the next evolution of resilient flooring. Engineered with a quartz-infused surface, it delivers exceptional durability while capturing the natural character of European Oak in both Select and Character visuals.

Offered in wide plank formats of 7.2” and 9” widths with 5’ lengths, Quartz PC combines modern scale with timeless design. The result is a floor that delivers the authentic matte look of real wood with the strength of advanced quartz surface technology—built to perform in today’s most demanding spaces.

BACKING:	IXPE sound-absorbing foam
LOCKING SYSTEM:	Angle/Angle Click
ENVIRONMENT:	FloorScore® Certified

All images are produced to be a close representation of the actual finished product. The finished flooring may contain a larger variation of color, grain, knots, and other character that may be evident in the smaller sample you are viewing. Images that are aged or have been exposed to direct sunlight may appear different (darker or yellowed), than the flooring it is meant to represent. // The **Select** designation is an emulation of a natural wood flooring Select grade, chosen to represent an aesthetic Select. Wood features such as knots and checks, along with other character, are limited presenting a cleaner look. This grade is truly the most ideal for a refined look in wood flooring. QPC features a unique patented process, presenting incredible clarity and durability.
